Does yours bring joy to the breakfast table?

North—East—South—West—women are solving the coffee problem.

Armies have solved it. "An army travels on its stomach" and of the army breakfast, ask any soldier what he would miss most.

Famous restaurants have solved it. They know that without the right coffee they would have failed.

One of the greatest American judges has said that unhappiness in the home commences with the first cup of poor coffee.

There is a coffee which brings a million men to breakfast "in a hurry"—a coffee that makes all these men eager to get to the breakfast table, slow to leave it.

Your grocer has this coffee—Arbuckle's. Today you can introduce its rich, full flavor in your home. Serve Arbuckle's for a week and notice how much more his breakfast means to him. Bring joy to your breakfast table.

Today there are whole towns where Arbuckle's is practically the only coffee used. In one State, alone, in a year, four pounds of Arbuckle's Coffee was used for every man, woman and child in the State—four times as many pounds of coffee as the population of the State!

The biggest oil deal in Kentucky since the Estill and Powell County fields have proven such heavy producers was consummated at Winchester, when the Security Producing and Refining Company, a Delaware corporation, purchased the holdings of Messrs. George Williams and J. T. Hare for a price near \$1,000,000.

With an unusual heavy demand for coal, eastern Kentucky operators are confronted with the worst shortage in years. Every mine could be running full time but for lack of cars they can operate only two and three days each week. The market is now firm and good prices prevail, in both steam and domestic grades. One bad effect of the shortage of cars is a scattering of miners at many of the plants, work not being sufficient to hold them.

I have 113 children, grandchildren and great grandchildren. Every mother's son of them is a Wilson booster. They would vote for my Democrat any time. It's been an awful hard job to raise 113 Democrats and the Democratic party should appreciate it. Any Democrats who care to make contributions can send them to me at Nash, Ky."

The fellow who waits for something to turn up will get it about as quick as the chap who sat down on a stump and waited for a cow to back up and be milked.

Coal for a Battleship.

Seventy tons of coal a day will carry an ordinary battleship along at the cruising speed of 10 to 12 knots; but to drive her at 20 or over, five times that amount must be used.
